STRAWBERRY PLANTS.

I am not issuing a catalog this season, but will send a copy of my 1916 or 1917 catalog as long as they last, if you request one.

I thank my customers for their generous patronage the past year and shall be glad to serve them again. The unusual conditions of last year caused a shortage of plants and I shall not be able to offer as many varieties as usual.

Spring is by far the best time to set plants; the earlier they can be set, the better. Do not allow the standard varieties to bloom the first season.

Plants can be set about 15 inches apart in the row and the rows 3 1-2 feet apart. Perfect blooming varieties will fruit if set by themselves. Pistillate varieties must have plants of perfect bloom set near them. Keep the buds removed until July 10 on Ever-bearing, and they will fruit the same season they are set.

I endeavor to have all plants true to name, but will not be held responsible for more than the first cost of the plants. Write your name and address plainly, and state how goods are to be shipped. If wanted by mail, include postage and save delay.

Plants are usually put up in bunches of 25, packed in baskets or crates.

Corsican. Very large and sweet. Perfect bloom.

Selected berries often go 13 to 15 to the quart.

Prolific yielder. Plant growth large.

Price of plants - Twenty-five, 35 cts. Fifty, 50 cts.

Hundred, 90 cts. Thousand, \$8.00.

Warren. Large, dark green foliage. Perfect bloom. Fruit very large, highly colored, glossy and delightful flavor. Plants - Twenty-five, 40 cents.

Fifty, 75 cts. Hundred, \$1.25.

Charles I. One of the earliest varieties. Perfect bloom. Plant growth large. Very productive. Berries light red, large, regular in form and good flavor. Long fruiting season. Price same as Corsican.

Senator Dunlap. Perfect in bloom. Prolific. Berries are medium in size, of good flavor and color. Price - Twenty-five, 25 cts. Fifty, 40 cents. Hundred, 75 cents. Thousand, \$6.00.

Willian Belt. Prolific. Large fruit of the finest flavor. Perfect bloom. Price same as Corsican.

Dr. Burrill. I have not yet fruited this variety. It is very highly recommended, with the following qualities: Foliage, dark green. Prolific runner maker. Heavy yielder of large, beautifully formed fruit, deep glossy red in color. It is a cross between Senator Dunlap and Crescent. Plants same price as Corsican.

I have small quantities of the following varieties, the price being the same as Corsican. Kellogg's Prize, Glen Mary, Early Jersey Giant, Abington, Aroma, Helen Davis and Big Joe.

EVER-BEARING.

✓ **Superb.** Perfect in bloom, thrifty plant growth, large fruit of good flavor. If the blossoms are kept picked until the 10th of July, they will commence fruiting the first of August and will fruit all of the fall the same season they are set. They will also fruit abundantly with the earliest varieties the following season. Price -- Less than 25, 4 cents each. Twenty-five, 75 cts. Fifty, \$1.40. Hundred, \$2.50.

✓ **Progressive.** Similar to Superb in regard to fruiting, but the fruit is smaller and of a different shape. Price the same as Superb.

RASPBERRIES.

✓ **Cuthbert.** Cuthbert is without doubt the best all a round raspberry. The cane growth is thrifty, yielding an abundance of large, dark red, firm, delightfully flavored fruit. It is a berry that always satisfies customers, and one for which they are willing to pay a good price. The plants stand the winter well. The fruit is later than some varieties.

Price of plants — Dozen, 50 cts. Hundred, \$2.00.

✓ **Herbert.** Berries large, prolific and of good flavor. Earlier than Cuthbert. Price same as Cuthbert.

✓ **St. Regis.** Berry light red, medium in size. Early. Fruit's some in the fall when season is favorable. Price same as Cuthbert.

GLADIOLUS. [SWORD LILY.]

Delicately tinted flowers through August and September. The blossoms on many kinds measure four

inches across. Spikes should be cut when the first two flowers open. The remaining buds will open in the house, giving fresh flowers for more than a week. Mixed varieties, 4 cents each. Twenty-five, 80 cts. Fifty, \$1.40. Hundred, \$2.50.

RHUBARB.

Our Rhubarb is a quick grower, tender, juicy and of good flavor. The color is a beautiful red. It is called by some, Strawberry Rhubarb. Excellent for pies and sauce. Price of roots, 10 cts. each. 75 cts. per doz. If by mail, 3 cts. each extra.

HORSERADISH.

Horseradish will grow year after year in the same soil. Price of sets, 25 cts. per doz., \$1.50 per 100.

NO. 328.

State of Maine.

DEPARTMENT OF AGRICULTURE CERTIFICATE of INSPECTION of NURSERY STOCK.

THIS IS TO CERTIFY THAT THE NURSERY STOCK OF PLEASANT VIEW FARM GROWING AT ROCKPORT, STATE OF MAINE, WAS EXAMINED JULY 14, 1917, IN COMPLIANCE WITH THE PROVISIONS OF CHAPTER 38 OF THE REVISED STATUTES, AS AMENDED, AND FOUND TO BE APPARENTLY FREE FROM SAN JOSE SCALE AND OTHER INJURIOUS INSECTS OR DISEASES.
